When your pet returns home please wait an hour before offering a small portion of food and water. Excessive eating and drinking upon returning home is common and can lead to problems. Sore throats may result from barking eagerly with their friends. Pets react in their own unique ways. Let us know if you have concerns. Please inform us if you are not satisfied with your pet's stay. Your satisfaction and your pet's well being are our primary concern. Thank you for the opportunity to be Your Pet's Home Away From Home.

Your Pet's Home Away From Home

Winter Park Pet Place provides your pet "A Home Away from Home." Rooms are climate controlled, comfortable and clean. There is a pleasant walk area and play yards. Veterinary care is available immediately if necessary. Guests are observed for adjustment or medical problems and a Daily Health Record is kept recording eating, elimination and other observations. Special accommodations for our feline friends are at The Cats Meow and our exotic guests at All Creatures Inn.

Feeding

We feed our guests 2 premium meals daily, Purina EN which is very easy to digest. Owners may bring in special diets. Daily snacks may be offered. Because all pets have individual needs we offer choices as to the accommodation and the package you may choose for your pet.

Staff

Jackie and Sandy, who together have worked approximately 37 years at WPPP love animals and are skilled at meeting individual guest needs.

They work closely with our other staff to ensure your pet has a comfortable, happy experience.

Medical Requirements for Guests

To maintain a healthy environment all pets within the last 12 months must have had the required immunizations [DA2PL/CPV-CV, Bordetella, FVRCP-C (cats), Rabies,(both)], have had a fecal examination for internal parasites and have been dewormed within the past 6 months. Proof is required if the immunizations and test were administered by a licensed veterinarian in the last year not associated with WPVH.

Initial Physical & First Reservation

Prior to the first reservation, and yearly after, an exam by one of our veterinarians allows us to know if there are problems or special needs, known and unknown, provide vaccinations

necessary and answer questions.

During this time you and your pet may meet with an Animal Care Specialist so we can learn about your pet and their unique needs. There will be the opportunity for a tour.

Once it is determined that our facility is right for your pet, your reservation can be finalized and your deposit made.
